ACCEPTANCE CONDITIONS :

Given the stricter quality requirements set by our customers, the importance of safety for your and our employees, and our commitment to the environment, we have adopted the following acceptance conditions.

Deliveries of ferrous and non-ferrous scrap must not contain any other elements such as soil, sand, liquids, PVC, plastic, glass, wood, bitumen, rubber or concrete. If any such materials are found in a delivery, we will apply a deduction and a waste surcharge. Deliveries with extreme levels of contamination (>5%) will be rejected.

We will not accept the following hazardous substances and/or materials:

- Materials containing or suspected of containing asbestos
- Radioactive material (will be handled as per the Dutch "Besluit/regeling detectie radioactief besmet schroot" (Decree/regulation on the detection of radioactively contaminated scrap))
- Ammunition and explosives
- Oil-based and oil-containing materials
- Materials containing hazardous and/or toxic substances
- Materials containing food remnants and/or producing a foul odour
- Paint canisters
- Materials containing Chrome-6
- Safes
- Closed objects
- Batteries and accumulators
- Objects with coolants/refrigerants (such as CFCs)
- Barrels and containers, unless empty and cleaned

The following materials will be accepted only after previous consultation:

- Batteries, provided they are deposited separately in designated battery containers.
- Condensers and heat exchangers, provided they are empty and come with a certificate confirming that they have been cleaned.
- Transformers, provided all substances with an environmental impact have been removed and they come with a certificate confirming that they have been cleaned or are free of PCBs.
- Oil tanks, provided they are delivered with a certificate confirming that they have been cleaned and have an open manhole (to enable inspection).
- Material governed by the WEEA scheme (such as consumer electronics and home appliances)

In the event that it turns out after receipt of a delivery that the delivered materials do not meet these acceptance conditions, the supplier may be held liable for all ensuing costs.

Pricing as here below, among others, will be applied.

MATERIAL	SPECIFICATION	CHARGE
Dirt in deliveries	-	-
Tyres	- Car tyres - Lorry, forklift or tractor tyres	-
Closed objects	Oxygen tanks, gas canisters, LPG tanks, gas tanks and pressurised containers/tanks/cylinders	-
Accumulators / batteries	Whatever type	-

We are counting on your cooperation.

Any questions?

If you have any questions about these acceptance conditions, please contact us, preferably by emailing sales@sribalaji-group.com If possible, please attach a photo of the material you are enquiring about.

Yours faithefully,

Management of Sri Balaji Steels.
